

## Contrarian Investments in the Energy Market

At Hotchkis & Wiley, we focus on finding securities we believe are trading at substantial discounts to their intrinsic value. When investor sentiment, emotions, or short term trends cause a security to deviate from its intrinsic worth, we see opportunity.

Please join us on July 20th for a conference call featuring **Portfolio Managers Stan Majcher and Hunter Doble**. During the call, they will share their:

- Differentiated view on oil prices
- Perspective on global supply and demand
- Opportunities in oil services, exploration and production
