

DESCRIPTION

The Diversified Value Fund focuses on undervalued large cap stocks. The Fund relies on in-depth fundamental research to develop a portfolio of 50-80 companies that are under-earning due to temporary factors but we believe have the balance sheet, scale, and market position to improve their performance over time.

ABOUT US

Since 1980, Hotchkis & Wiley has focused on discovering undervalued securities through extensive internal research. We manage \$25 billion in value equity and high yield assets for institutional and mutual fund investors. The firm is independently owned with a majority interest held by employees.

Market Disruption: The recent global coronavirus pandemic has caused and continues to cause disruption in the global economy, unprecedented business and travel disruption and extreme fluctuations in global capital and financial markets. H&W is unable to predict the consequences of the upheaval caused by coronavirus pandemic, which, depending on the severity and the length of the outbreak, has the potential to negatively impact the firm's investment strategies and reduce available investment opportunities.

Data source: H&W, Bloomberg. Holdings are subject to change and are not buy/sell recommendations. *Price/Normal Earnings* is the current market price per share divided by normalized earnings per share. *Forward Price/Earnings (FY2)* is the projected P/E ratios of the companies invested in the portfolio, which ratios represent current market price per share divided by a company's estimated future earnings-per-share. Projected earnings are consensus analyst forecasts; actual P/E ratios may differ from projected P/E ratios. *Price/Book* is the price of a stock divided by its book value. *Market Capitalization* of a company is calculated by multiplying the number of outstanding shares by the current market price of a share. *Turnover* is an annualized rate found by dividing the lesser of purchases and sales by the average of portfolio assets. *Active Share* is the extent to which the portfolio differs from the designated Index. **Diversification does not assure a profit nor protect against loss in a declining market.**
