DESCRIPTION

The Mid-Cap Value Fund invests in 50-80 undervalued mid-sized companies with an emphasis on sustainable cash flow, strong balance sheet, and potential for long-term capital appreciation. The Fund invests in industries and companies that may be out of favor and misunderstood due to temporary or cyclical factors.

ABOUT US

Since 1980, Hotchkis & Wiley has focused on discovering undervalued securities through extensive internal research. We manage \$36 billion in value equity and high yield assets for institutional and mutual fund investors. The firm is independently owned with a majority interest held by employees.

The Russell Midcap® Value Index measures the performance of those Russell Midcap® companies with lower price-to-book value ratios and lower forecasted growth values. The index does not reflect the payment of transaction costs, fees and expenses associated with an investment in the Fund. It is not possible to invest directly in an index.

Data source: H&W, Russell, Bloomberg. Holdings are subject to change and are not buy/sell recommendations. **Price/Normal Earnings** is the current market price per share divided by normalized earnings per share. **Forward Price/Earnings (FY2)** is the projected P/E ratios of the companies invested in the portfolio, which ratios represent current market price per share divided by a company's estimated future earnings-per-share. Projected earnings are consensus analyst forecasts; actual P/E ratios may differ from projected P/E ratios. **Price/Book** is the price of a stock divided by its book value. **Market Capitalization** of a company is calculated by multiplying the number of outstanding shares by the current market price of a share. **Turnover** is an annualized rate found by dividing the lesser of purchases and sales by the average of portfolio assets. **Active Share** is the extent to which the portfolio differs from the designated Index. **Cash flow** measures the cash generating capability of a company by adding non-cash charges (e.g., depreciation) and interest expense to pretax income.

Mutual fund investing involves risk. Principal loss is possible.
