

VALUE OPPORTUNITIES

DESCRIPTION

Value Opportunities is a dynamic portfolio of undervalued securities representing our best ideas across the market cap spectrum. While the majority of the portfolio is expected to be invested in equities, the strategy also invests in special situations opportunistically. This can include bonds, preferreds, merger arbitrage, etc. The portfolio of 45-75 issuers favors companies with financial strength, predictable business models, and shareholder friendly capital allocation.

ABOUT US

Since 1980, Hotchkis & Wiley has focused on discovering undervalued securities through extensive internal research. We manage \$33 billion in value equity and high yield assets for institutional and mutual fund investors. The firm is independently owned with a majority interest held by employees.

All investments contain risk and may lose value. The strategy may be viewed as non-diversified, which may concentrate its assets in fewer individual holdings. The strategy may be exposed to more individual stock volatility than a more diversified strategy and may also invest in smaller and/or medium-sized companies, foreign securities, and debt securities. A value-oriented investment approach involves the risk that value stocks may remain undervalued or may not appreciate in value as anticipated. Value stocks can perform differently from the market as a whole or from other types of stocks and may be out of favor with investors and underperform growth stocks for varying periods of time. Hotchkis and Wiley Capital Management, LLC (the "Firm" or "H&W") claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. H&W has been independently verified for the periods October 9, 2001 through December 31, 2023. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. The Value Opportunities Composite has had a performance examination for the periods November 1, 2002 through December 31, 2023. The verification and performance examination reports are available upon request.

H&W is an independent investment management firm registered with the U.S. Securities and Exchange Commission and manages value equity and high yield assets for institutional and mutual fund investors. Its predecessor firm was established in 1980. The equity team of the predecessor firm established H&W in October 2001.

H&W refers to itself as a "registered investment adviser" in materials distributed to current and prospective clients. As a registered investment adviser with the SEC, H&W is subject to the rules and regulations adopted by the SEC under the Investment Advisers Act of 1940, as amended (the "Advisers Act"). Registration as an investment adviser is not an indication that H&W or its directors, officers, employees or representatives have attained a particular level of skill or ability.

Valuations and returns are stated in U.S. dollars. Investment returns include reinvestment of dividends, interest, and capital gains. Gross performance results are presented before management and custodial fees but after all trading expenses. Net performance results are presented after actual management fees and all trading expenses but before custodial fees. H&W's management fees are described in Part 2A of its Form ADV. The standard Value Opportunities management fee schedule is 75 basis points on the first \$25 million and 65 basis points thereafter. Internal dispersion is calculated using the equal-weighted standard

deviation of all portfolios (gross returns) that were included in the Composite for the entire year. A list of composite and broad distribution pooled fund descriptions and policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request. Composite: The Composite includes all Value Opportunities discretionary accounts. The Value Opportunities strategy seeks capital appreciation primarily through investments in equity securities, such as common stock, preferred stock and convertible securities, of any size market capitalization, and investment grade and high yield ("junk bonds") fixed income securities. Companies that is believed to have strong capital appreciation potential and may invest in foreign (non-U.S.) securities. It may enter into currency contracts (such as spot, forward and futures) to hedge foreign currency exposure. As of December 31, 2024, there was one non-fee paying account in the composite, which represented 0.2% of composite assets. Applied standard fee schedule to calculate net of fee returns. The typical market cap range of the strategy is consistent with the market cap range of the Russell 3000® Index. (Composite creation & inception date: 11/1/2002)

Index: The Russell 3000® Value Index ("R3000V") includes stocks from the Russell 3000® Index with lower price-to-book ratios and lower expected growth rates. The index assumes reinvestment of dividends and capital gains, and assumes no management, custody, transaction or other expenses. The value disciplines used in managing the accounts in the Composite may prevent or limit investment in major stocks in the R3000V and returns may not be correlated to the index. Beginning December 15, 2023, the S&P 500® Index, previously included on the report as a supplemental index, will be removed. Benchmark returns are not covered by the report of independent verifiers.

The 3-year annualized standard deviation measures the variability of the composite (using gross returns) and the benchmark(s) returns over the preceding 36-month period ended.
